

Petroleum SCR Drill Rig Gen Sets

ONSHORE APPLICATIONS

Vertical Cores/Blower Fan

- Low fan hp/low sound
- Side-by-side and front-to-back core configurations
- Heavy duty plate fin cores with low fin count for non-clogging
- Lead-free solder bonded fins to tubes

Vertical Cores/Vertical Discharge

- Low fan hp/low sound
- Side-by-side and front-to-back core configurations
- Heavy duty plate fin cores with low fin count for non-clogging
- Discharge hot air vertically for personnel safety
- Wind direction does not affect cooling

OFFSHORE APPLICATIONS

- Custom designed units to meet customer requirements
- Frame and core coatings for sea air protection
- Electric motor with options for sea air protection and heater block

ADDITIONAL ADVANTAGES

- Tubing kits available
- Y-Bone mount system
- Electric fan drive option available
- Seven full-time engineers on staff to address your needs and assist with design
- More than 70,000 sq. ft. of manufacturing facilities and 120 employees
